Company

SAMS Enterprise is an equal opportunity employer; we welcome applications from people with disabilities. We value the diversity of the people we hire and serve.

Diversity at SAMS means fostering a workplace in which individual differences are recognised, appreciated and respected, as well as responded to in ways that fully develop and utilise each person's talents and strengths.

Job Description

- Project management and marine consultancy.
- Knowledge and experience of marine sectors and activities relevant to the work undertaken at SAMS Enterprise.
- Coordinating and managing projects through the delivery process to budget and customer requirements.

- Act as lead editor/author on multi-disciplinary technical assessments/reports.
- Demonstrate technical competency and provide direction and leadership in your own scientific specialism for commercial contracts.
- Opportunity development - engage with business development and proposals when required.

Requirements and Qualifications

Our ideal candidate:

- A degree or postgraduate degree in a marine environmental discipline
- Relevant experience in a consultancy or regulatory background including experience of survey work and survey management (essential).
- Demonstrated previous experience of successful project management in a commercially competitive environment.
- Ability to use software such as Q-GIS, R and standard Microsoft Office.
- Knowledge of costing/estimating, finance, resource and time management.
- Experience in working collaboratively with scientific staff and customers.
- Experience of contract management and working knowledge of standard contract terms and conditions desirable.

How to Apply

Applications may be submitted by e-mail, handed in to our reception team or by postal mail no later than 6th January 2026. Interviews will be held in January 2026.
